ACCP CWI/SCWI Certification Program - ASNT

Because most test methods require that the operator look at the surface of the part being inspected, visual inspection is inherent in most of the other test methods. As the name implies, VT involves the visual observation of the surface of a test object to evaluate the presence of surface discontinuities.

Introduction to Nondestructive Testing - ASNT

ASNT – The American Society for Nondestructive Testing (not to be confused with Aerobics & Sport in Newcastle upon Tyne!) exists to create a safer world by serving the NDT professions and promoting NDT technologies, through publishing, certification, research and conferencing. It is the American equivalent of our BINDT. known for publishing Recommended Practice No. SNT-TC-1A: Personnel Qualification and Certification in Nondestructive Testing (2006) which provides guidelines for employers ...

ASNT

SNT TC-1A, Personnel Qualification and Certification in Nondestructive Testing, 2015 Edition, is a recommended practice developed by the American Society for Nondestructive Testing (ASNT) and updated annually, that provides guidelines for employers establishing an in-house certification program for nondestructive examination. SNT TC-1A has been widely used by employers as a framework for in-house NDT certification programs since 1966 and is reviewed every five years.

Condition assessment of bridges is the first step in each bridge management system and it is mainly performed based on visual inspection of bridges. Visual inspection of bridges is a subjective process and, therefore, it should be supplemented by other evaluation techniques. In this study, a novel bridge management system is developed for the republic of Turkey and condition assessment of bridges are performed based on visual inspections.
