Sociology: A Global Introduction by Plummer, Prof Ken, 2011-08-01

This is the first complete multi-media package in sociology – a carefully coordinated combination book, CD-ROM, and Web site. Authoritative, comprehensive, and stimulating, it offers a fresh and contemporary perspective – with a focus on the major methods, theories, and findings of the field. It emphasizes a global perspective, a multicultural view, and a focus on critical thinking, and features an abundance of boxed features highlighting and personalizing contemporary applications. Covers: The Sociological Perspective; Sociological Investigations; Culture; Society; Socialization; Social Interaction in Everyday Life; Groups and Organizations; Deviance; Social Stratification; Social Class in the United States; Global Stratification; Sex and Gender; Race and Ethnicity; Aging and the Elderly; The Economy and Work; Politics and Government; Family; Religion; Education; Health and Medicine; Population and Urbanization; Environment and Society; Collective Behavior and Social Movements; and Social Change: Traditional, Modern, and Postmodern Societies. Includes fifty-six global and national maps. For anyone interested in a comprehensive, interactive introduction to sociology.

Concise overview of the political and economic development of the world's cities, with a cultural perspective and case studies throughout, including support materials.

This is an introductory sociology text that shows students how sociology is relevant in their daily lives.

Sociology: A Global Introduction, with its international outlook and cultural diversity, represents a unique and complete learning resource for sociology students worldwide. Each chapter addresses a new change in society, and reveals how progress in society often comes at a price. This text has been fully updated to include the latest key debates, topics and data, and also highlights the importance of technology in contemporary social life.

This is a great value multipack consisting of Sociology: A Global Introduction 2nd edition (ISBN 0130407372) and Sociology on the Web: A Student Guide (ISBN 0130605743).

Political Sociology in a Global Era provides a critical analysis of the origins, nature, development, and transformation of the state and society historically and today, examining the class nature and social basis of politics and the state in different societal settings. The book emphasizes the centrality of class relations in explaining political power and the role of the state in class-divided societies by providing powerful theoretical and empirical analyses of themes in political sociology in an era of globalization. It examines in detail the major political issues and events of our time, and makes them relevant to the study of power and politics today. Some of the features of this text include: Introduces a global political sociology emphasizing the dynamics of power relations Provides a critical analysis of the role of politics and the state within the world-historical process Describes classical and contemporary theories of politics and the state Explains the origins and development of the state, discussing the nature of the state, its class basis, and contradictions in different types of societies Considers the dynamics of the capitalist state and traces its development in Europe and the United States from the 18th century to the present Details the role of the advanced capitalist state in the global political economy at the current, advanced stage of late capitalism Discusses the social movements that have been actively struggling against the capitalist state from earlier times to the present, including the Arab Spring, focusing on recent developments in both advanced capitalist and less-developed capitalist societies where mobilization of the masses has led to struggles against the capitalist state on a global scale Offers an original analysis of global capitalism and places it in the context of the current crisis of the global capitalist system

Comprehensive and engaging, this textbook introduces students not only to foundational sociological work, but also to insights from contemporary sociological theory and research. This combined approach ensures that students become familiar with the core of sociology: key concepts, theories, perspectives, methods, and findings. Students will acquire the ability to think like a sociologist, investigate and understand complex social phenomena. This text presents a complete sociological toolkit, guiding students in the art of asking good sociological questions, devising a sophisticated theory and developing methodologies to observe social phenomena. The chapters of this book build cumulatively to equip students with the tools to quickly understand any new sociological topic or contemporary social problem. The textbook also applies the sociological toolkit to selected key sociological issues, showing how specific sociological topics can be easily investigated and understood using this approach. Taking a global and comparative perspective, the book covers a rich diversity of sociological topics and social problems, such as crime, immigration, race and ethnicity, media, education, family, organizations, gender, poverty, modernization and religion. The book presents a range of helpful pedagogical features throughout, such as: Chapter overview and learning goals summaries at the start of every chapter; Thinking like a sociologist boxes, encouraging students to reflect critically on learning points; Principle boxes, summarizing key sociological principles; Theory schema boxes, presenting sociological theories in a clear, understandable manner; Stylized facts highlighting key empirical findings and patterns; Key concepts and summary sections at the end of every chapter; and Companion website providing additional material for every chapter for both instructors and students, including PowerPoint lecture notes, discussion questions and answers, multiple-choice questions, further reading and a full glossary of terms. This clear and accessible text is essential reading for students taking introductory courses in sociology. It will also be useful for undergraduate and graduate courses in other social science disciplines, such as psychology, economics, human geography, demography, communication studies, education sciences, political science and criminology.

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

This groundbreaking new introduction to sociology is an innovative hybrid textbook and reader. Combining seminal scholarly works, contextual narrative and in-text didactic materials, it presents a rich, layered and comprehensive introduction to the discipline. Its unique approach will help inspire a

creative, critical, and analytically sophisticated sociological imagination, making sense of society and the many small and large problems it poses.
