Worksheet

Answer Key

This is a lab manual for a college-level human anatomy course.

Mastery of anatomy requires a fair amount of memorization and recall skills. The activities in this manual encourage students to engage with

# Read Book

## Chapter 8

new vocabulary in many ways, including grouping key terms, matching terms to structures, recalling definitions, and written exercises. Most of the activities in this manual utilize anatomical models, and several dissections of animal tissues and histological examinations are also included. Each unit

# Read Book

## Chapter 8

includes both pre- and post-lab questions and six lab exercises designed for a classroom where students move from station to station. The vocabulary terms used in each unit are listed at the end of the manual and serve as a checklist for practicals.

Effective science

*Page 41/61*

# Read Book

## Chapter 8

teaching requires  
creativity, imagination,  
and innovation. In light  
of concerns about

American science  
literacy, scientists and  
educators have  
struggled to teach this  
discipline more  
effectively. Science  
Teaching Reconsidered  
provides undergraduate  
science educators with a  
path to understanding
