**A New Way of Looking at Power at Work** Who hasn't left the office after a particularly frustrating day wondering what they could have done to turn a negative experience into a positive one? Perhaps it was a difficult conversation with a domineering boss, or an encounter with a know-it-all peer who made you feel insecure. Would you believe the way you react to these interactions likely stems from the dynamics you experienced as a child? Could it be that your childhood persona has grown into your power persona at work? In *Power Genes*, executive coach Maggie Craddock reveals how to kick those old habits—crying too hard to please, acting out, using manipulative methods of persuasion—and tells how to use power more effectively to advance your career. Craddock identifies four power types and explains how to diagnose yours: • The Pleaser—you make others feel good about themselves but need constant validation and approval from them • The Charmer—you draw others in with your charm, yet trust is your Achilles heel • The Commander—you take charge of the situation and gain admiration from others, but fear any loss of control • The Inspirer—you are star power in action, yet your vision for the future can derail the needs of workers right now The book outlines a process for avoiding your type's signature destructive reflexes and replacing them with new behaviors—helping you to interact productively with other people in the office. By showing you how to recognize your type's blind spots and then recondition your actions, *Power Genes* will give you the insights and action plan you need to become a more consistently powerful professional. It's time to throw out unproductive habits and take charge of your workplace relationships.

If you want to use Adobe Flex to build production-quality Rich Internet Applications for the enterprise, this groundbreaking book shows you exactly what's required. You'll learn efficient techniques and best practices, and compare several frameworks and tools available for RIA development -- well beyond anything you'll find in Flex tutorials and product documentation. Through many practical examples, the authors impart their considerable experience to help you overcome challenges during your project's life cycle. Enterprise Development with Flex also suggests proper tools and methodologies, guidelines for determining the skill sets required for the project, and much more. Choose among several frameworks to build Flex applications, including Cairngorm, PureMVC, Mate, and Clear Toolkit Apply selected design patterns with Flex Learn how to extend the Flex framework and build your own component library Develop a sample AIR application that automatically synchronizes local and remote databases to support your sales force Get solutions for leveraging AMF protocol and synchronizing Flex client data modifications with BlazeDS-based servers Determine the actual performance of your application and improve its efficiency

An anthology of unparalleled scope, *American Movie Critics* charts the rise of movies as art, industry, and mass entertainment. Here are the great movie critics who forged a forceful new vernacular idiom for talking about the new art--Otis Ferguson, James Agee, Richard Schickel, Pauline Kael, Andrew Sarris, and Molly Haskell, among them. Here too are notable American writers, including Carl Sandburg, H. L. Mencken, Susan Sontag, and John Ashbery, weighing in on a range of cinematic experiences. The volume's narrative continues to the present with a sampling of the best of today's reviewers, including J. Hoberman, Roger Ebert, A. O. Scott, and Manohla Dargis. This paperback edition includes additional material reflecting the impact of the Internet and DVDs on film criticism.

The Muhammad cartoon crisis of 2005/2006 in Denmark caught the world by surprise as the growing hostilities toward Muslims had not been widely noticed. Through the methodologies of media anthropology, cultural studies, and communication studies, this book brings together more than thirteen years of research on three significant historical media events in order to show the drastic changes and emerging fissures in Danish society and to expose the politicization of Danish news journalism, which has consequences for the political representation and everyday lives of ethnic minorities in Denmark.

An interdisciplinary collection of essays exploring the interaction between politics and the arts.

International Finance and Open-Economy Macroeconomics provides a complete theoretical, historical, and policy-focused account of the international financial system that covers all of the standard topics, such as foreign exchange markets, balance of payments accounting, macroeconomic policy in an open economy, exchange rate crises, multinational enterprises, and international financial markets. The book uses the 1944 Bretton Woods Conference as a unifying theme to relate the many controversial issue. It is written in a lively manner to bring real world events into the discussion of all of the concepts, topics, and policy issues. There is also emphasis on the history of economic thought in order to explain how economists in different time periods dealt with international financial issues.

Illustrated with biographical as well as professional detail, this text suggests that Gilbert and Sullivan's creative partnership was fuelled by their ongoing personality clash, as each partner challenged the other to produce his best work.

This collection presents typological work on tense, aspect, and epistemic modality in a variety of languages and against the background of different schools of thinking, among which the St. Petersburg Typological School developed and so masterfully implemented by the Petersburg linguist, Vladimir Petrovich Nedjalkov. The volume honors this reputed scholar for his life work. It is in mainly this spirit (and the EUROTYPE spirit) that the following scholars have contributed to the volume: T.Tsunoda on Warrungu (Australian indigenous language), L. Kulikov on Vedic, K. Kiryu on Japanese, Korean and Newari, N. Sumbatova on Svan (from the Kartvelian group), T.Bulygina & A. Shmelev on Russian, M. Roeder on Georgian, R. Thieroff on ardist and imperfect in European languages, V. Pouppynin on Russian, L. Johanson on Kipchak Turkic, I. Dolina on Russian, N. Kozintseva on Old and Modern Eastern Armenian, Ch. Lee on Korean, W. Abraham on split ergative languages and German, G. Silnitsky on Russian, V. Plungian on Russian, E. Rakhilina on Russian, and K. Ebert on Kalmyk.
