Topology. The mathematical study of shapes and topological spaces, topology is one of the major branches of mathematics. We publish a variety of introductory texts as well as studies of the many subfields: general topology, algebraic topology, differential topology, geometric topology, combinatorial topology, knot theory, and more.

General Topology (Dover Books on Mathematics): Kelley ...

This critically acclaimed text by a major twentieth-century mathematician presents a detailed theory of Fréchet (V) spaces and a comprehensive examination of their relevance to topological spaces, plus in-depth discussions of metric and complete spaces. The author's exposition is clear and refined.
