In economics,  
industrial

organization is

a field that  
builds on the  
theory of the  
firm by

examining the  
structure of  
firms and  
markets.

Industrial

adds real-world complications to the perfectly

competitive model,

complications such as

transaction costs, limited information, and barriers to entry of new firms that may

be associated with imperfect competition. It analyzes

determinants of firm and market organization and behavior on a continuum

between competition and monopoly, including
