The word tension comes from the Latin word *tendere*, which means "to stretch." It's not a bad thing to be stretched in our careers, our parenting, our ministries, or our leadership.

Without tension, we become stagnant and stop growing. In fact, we might even say that tension is both inevitable and, in many cases, desirable in life and leadership. In *Harnessing the Power of Tension: Stretched but Not Broken*, international leadership consultant Sam Chand examines tension as it arises in and between the arenas of business, church, and family. The presence of tension isn't a flaw in you or a threat from others. It's not a problem to solve, but a strain to be used. When you develop this perspective and you encounter tension, you'll be less confused and feel less guilty because you understand that tension isn't the result of your error or flaw. You'll experience less pressure to figure everything out and less compulsion to resolve it quickly and completely. When we accept tension as a reality of life, we gain

confidence and mental clarity when we encounter it. Our focus isn't on getting rid of tension, but using it to create something better than before. We don't walk on eggshells, afraid to say the wrong thing. We learn when to speak up, when to ask questions, when to listen, and when to let things go. As we relax in the middle of tension, we see people and situations more clearly, and we invite our families and teams into the process of creatively using tension in life and leadership.

Achievement in International Literature. The House on Mango Street is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes-sometimes heartbreaking, sometimes deeply joyous-Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers. "Cisneros draws on her rich [Latino] heritage ... and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one." "The New York Times Book Review

Every one of us gets anywhere in life due to three things: someone observes us, forms an opinion about us, and decides to give us an opportunity—or not. Likewise, we do the same thing with others. People have played this essential role

in our lives, and we play it in the lives of those around us—and no matter how skilled we've become, we can play it even better. The sequence applies in business, the church, marriages, parenting, and friendships. We often assess others in the blink of an eye. We instinctively notice the look on someone's face, the tone of voice, or the body language that's consistent or different from the words being spoken. We react to our observation, but we seldom stop to analyze before we respond—it just happens, and it happens immediately: we observe and have an opinion, and based on what we've determined in that second, we either give the person an opportunity to engage with us or we close the door and remain guarded. The Sequence to Success: Three O's That Will Take You Anywhere in Life is a leadership book, but

it's not limited to corporate presidents, CEOs, or lead pastors; it's for everyone who has a position of influence in another person's life—and that includes all of us. In this book, Sam Chand brings our subconscious assumptions into the light. With more insight and confidence, you'll make better decisions to advance the people around you—or perhaps show them the door. These principles also help you become more conscious that people are observing you and forming opinions about you that will open or close doors of opportunity.

Zones, reveals seven beliefs central to working miracles in our everyday lives. When most of us think of magic, we picture a man in a black cape sawing a woman in half, or a sleight-of-hand card trick. But there's another kind of magic — real magic — that can enrich your life. According to Dyer, real magic means creating miracles in everyday life. Quitting smoking or drinking, achieving new Job success, or finding a happy relationship — these are all miracles because they transcend our perceived limitations. From "creating a miracle mind-set" and achieving change in the areas of personal health, prosperity, and fulfilling love relationships to believing in the magic of miracles on a global scale, Dyer shows us that miracles within our reach and within our own minds. In Real Magic, Dyer teaches us how to achieve a higher level of

consciousness. He asks us to imagine what would make us happy, then offers specific strategies for attaining these goals. In every aspect of our individual lives — physical health, finances, intimate relationships, and personal identity — there is always room for a miracle or two. And with Dyer's help, each and every one of us can be a miracle worker.

Overthinking isn't a personality trait. It's the sneakiest form of fear. It steals time, creativity, and goals. It's the most expensive, least productive thing companies invest in without even knowing it. And it's an epidemic. When New York Times bestselling author Jon Acuff changed his life by transforming his overthinking, he wondered if other people might benefit from what he discovered. He commissioned a research study

to ask 10,000 people if they struggle with overthinking too, and 99.5 percent said, "Yes!" The good news is that in Soundtracks, Acuff offers a proven plan to change overthinking from a super problem into a superpower. When we don't control our thoughts, our thoughts control us. If our days are full of broken soundtracks, thoughts are our worst enemy, holding us back from the things we really want. But the solution to overthinking isn't to stop thinking. The solution is running our brains with better soundtracks. Once we learn how to choose our soundtracks, thoughts become our best friend, propelling us toward our goals. If you want to tap into the surprising power of overthinking and give your dreams more time and creativity, learn how to DJ the soundtracks that define you. If you can worry, you can wonder. If you can

“Listening to stories gives you many lives, telling them dims loneliness.” —Marcela Serrano

Nine Chilean women from vastly different backgrounds have been brought together by their beloved therapist, Natasha, to talk about their lives and help each other heal. From a teenage computer whiz confronting her sexual identity, to a middle-aged recluse who prefers the company of her dog over that of most humans, the women don't have much in common on the surface. And yet as they tell their stories, unlikely common threads are discovered, bonds are formed, and lives are transformed. The women represent the many cultural, racial, and social groups that modern Chile is composed of—from housekeeper to
