KK was sitting on top of a roomful of the preparatory works of the Hamoodur Rehman Report when he was unceremoniously kicked out of the Pakistan Commission for Historical and Cultural Research by General Zia and made to flee the country. One can be sure that he would have produced the book that Pakistan deserved after the debacle of East Pakistan, had he stayed on.

The Pakistan Movement or Tahrik-e-Pakistan (Urdu: ????????? ?????????? – Taʿrīk-i-Pākīstān) was a political movement in the first half of the 20th century that aimed for and succeeded in the creation of the Dominion of Pakistan from the Muslim-majority areas of British India. It was connected to the need for self-determination for Muslims under British rule at the time.

The Shias of Pakistan are the world's second largest Shia community after that of Iran, but comprise only 10-15 per cent of Pakistan's population. In recent decades Sunni extremists have increasingly targeted them with hate propaganda and terrorism, yet paradoxically Shias have always been fully integrated into all sections of political, professional and social life without suffering any discrimination. In mainstream politics, the Shia- Sunni divide has never been an issue in Pakistan. Shia politicians in Pakistan have usually downplayed their religious beliefs, but there have always been individuals and groups who emphasised their Shia identity, and who zealously campaigned for equal rights for the Shias wherever and whenever they perceived these to be threatened. Shia 'ulama' have been at the forefront of communal activism in Pakistan since 1949, but Shia laymen also participated in such organisations, as they had in pre-partition India. Based mainly on Urdu sources, Rieck's book examines, first, the history of Pakistan's Shias, including their communal organisations, the growth of the Shia 'ulama' class, of religious schools and rivalry between "orthodox" "ulama" and popular preachers; second, the outcome of lobbying of successive Pakistan governments by Shia organisations; and third, the Shia-Sunni conflict, which is increasingly virulent due to the state's failure to combat Sunni extremism.

In Other Rooms, Other Wonders illuminates a place and people as it describes the overlapping worlds of an extended Pakistani landowning family. Servants, masters, peasants and socialites, all inextricably bound to each other, confront the advantages and constraints of their station, the dissolution of old ways, and the shock of change. These richly textured stories reveal the complexities of Pakistani class and culture, as they describe the loves, triumphs, misunderstandings and tragedies of everyday life.

For more than fifty years, students and teachers have made the two-volume resource Sources of Indian Traditions their top pick for an accessible yet thorough introduction to Indian and South Asian civilizations. Volume 2 contains an essential selection of primary readings on the social, intellectual, and religious history of India from the decline of Mughal rule in the eighteenth century to today. It details the advent of the East India Company, British colonization, the struggle for liberation, the partition of 1947, and the creation of Pakistan, Bangladesh, and contemporary India. This third edition now begins earlier than the first and second, featuring a new chapter on eighteenth-century intellectual and religious trends that set the stage for India's modern development. The editors have added material on Gandhi and his reception both nationally and abroad and include different perspectives on and approaches to Partition and its aftermath. They expand their portrait of post-1947 India and Pakistan and add perspectives on Bangladesh. The collection continues to be divided thematically, with a section devoted to the drafting of the Indian constitution, the rise of nationalism, the influence of Western thought, the conflict in Kashmir, nuclear proliferation, minority religions, secularism, and the role of the Indian political left. A phenomenal text, Sources of Indian Traditions is more
