**Piper PA-23 Apache/Aztec—Barrie-Aircraft**
The origins of the PA-23 Apache (one of the first widely available GA twins and Piper's first "Indian") and the larger and more powerful Aztec lie in the early postwar Twin Stinson design. Piper acquired the assets of Consolidated Vultee's Stinson Aircraft division in 1948, and inherited a design study for a modern four place light twin.

The Piper PA-23, named Apache and later Aztec, is a four-to-six-seat twin-engined light aircraft aimed at the general aviation market that also saw service with the United States Navy and other countries' military forces in small numbers.

**Piper PA-23 | Military Wiki | Fandom**
The PA-23 Apache was one of the first aircraft associated with the term "air taxi", although it was superseded in that role by faster and more spacious designs from competitors Beechcraft and Cessna. Beginning production in 1965, the PA-32 series provided six- or seven-seat, single-engine designs based on the smaller Cherokee.
