These dramatically different organizations, which ranged from financial services and telecommunications, to technology and government-based R&D, all shared one thing: the reliance upon effective project portfolio management for their success. In this landmark study, researchers were granted unprecedented access to reams of internal project documentation and hours of one-on-one time with key personnel, from C-Suite and project management executives to front-line staff. This enabled the team to assemble the inside story of how project portfolios were actually managed in each of these organizations, and identify what worked and what
