Casio CFX-9850GC Plus CFX models are capable of displaying three colors: orange, blue and green. The colors are handled much like a multi-level grayscale display, in that altering the contrast of a pixel changes its color. A light contrast displays orange, then as the contrast increases, the color becomes blue, then green at a dark contrast.

“A book that both taught me so much and also kept me on the edge of my seat. It is an invaluable text from a supremely talented writer.” —Clint Smith, author of *How the Word is Passed* The definitive history of the pervasiveness of racial inequality in American higher education America’s colleges and universities have a shameful secret: they have never given Black people a fair chance to succeed. From its inception, our higher education system was not built on equality or accessibility, but on educating—and prioritizing—white students. Black students have always been an afterthought. While governments and private donors funnel money into majority white schools, historically Black colleges and universities (HBCUs), and other institutions that have high enrollments of Black students, are struggling to survive, with state legislatures siphoning away federal funds that are legally owed to these schools. In *The State Must Provide*, Adam Harris reckons with the history of a higher education system that has systematically excluded Black people from its benefits. Harris weaves through the legal, social, and political obstacles erected to block equitable education in the United States, studying the Black Americans who fought their way to an education, pivotal Supreme Court cases like *Plessy v. Ferguson* and *Brown v. Board of Education*, and the government’s role in creating and upholding a segregated education system. He explores the role that Civil War–era legislation intended to bring agricultural education to the masses had in creating the HBCUs that have played such a major part in educating Black students when other state and private institutions refused to accept them. *The State Must Provide* is the definitive chronicle of higher education’s failed attempts at equality and the long road still in front of us to remedy centuries of racial discrimination—and poses a daring solution to help solve the underfunding of HBCUs. Told through a vivid cast of characters, *The State Must Provide* examines what happened

before and after schools were supposedly integrated in the twentieth century, and why higher education remains broken to this day.

The debut novel by the author of *Rattlebone*. “Told in a melody all its own, this story touches many lovely and unexpected notes.” —Elizabeth Strout, #1 New York Times bestselling author

It is 1950 and October Brown is a twenty-three-year-old first-year teacher thanking her lucky stars that she found a room in the best boardinghouse for Negro women teachers in Wyandotte County, Kansas. During an affair with an unhappily married handyman, October becomes pregnant. With job in jeopardy and her reputation in tatters, October goes back to Ohio to be with her family: her older sister, Vergie, and her aunts who raised the sisters after their mother was killed by their father. After giving birth, she gives the child to Vergie and her husband to raise as their own, then returns to Kansas City to rebuild her life. But something is missing—and, apparently too late, October realizes what she has done . . . The Midwest, the flourishing of modern jazz, and the culture of segregation form a compelling historical backdrop for this timeless and universal tale of one person’s battle to understand and master her own desires, and to embrace the responsibilities and promise of mature adulthood. In *October Suite*, Clair “has skillfully brought lyricism and word-play to her first novel, a family saga filled with secrets, redemption, and rivalry, as two sisters try to reclaim bonds forged in early childhood tragedy” (*Library Journal*). “Maxine Clair deserves our admiration for this beautifully written and humane novel.” —*The Washington Post* “A beautifully imagined novel that pulses with all the colors and sounds of the lives we live.” —Marita Golden, author of *The Wide Circumference of Love*
