Heather M. Hart Kirton. 5.0 out of 5 stars Excellent for beginners. January 13, 2010. Format: Paperback Verified Purchase. I bought this book for my daughter (8th grader) who is really getting into mosaic art after completing a project she did in art class last spring. This book has great ideas for patterns, and shows each pattern in several different color combinations, which is great because it shows her that she doesn't just have to copy the pattern.

Life -- personally and professionally -- is lived to the fullest as a mosaic, encompassing a rich and complex set of diverse experiences that provide purpose, meaning, happiness, and success. Yet, the pressures of modern society push us toward narrower focus and deeper specialization in our lives and careers. Our pursuit of specific expertise risks us becoming isolated from those different from us; our lack of shared experience fosters suspicion and conflict. Today we have businesspeople and government officials who persistently distrust and demonize each other; a fortunate swath of society with professional and financial security, increasingly isolated from those left behind; and community leaders who struggle to relate to and connect with the communities they serve. In every walk of life we have allowed ourselves to be pushed into self-defining cocoons from which it is difficult to break out. Nick Lovegrove's compelling vision provides the way out of this contemporary trap. He supplies vivid portraits of those who get it right (such as Paul Farmer, the physician whose broad and imaginative choices bring health and hope to the world's poorest people) and those who get it deeply wrong (such as Jeffrey Skilling, the former CEO of Enron) and connects their experiences with a blueprint of six skills -- a moral compass, transferrable skills, contextual intelligence, prepared mind, intellectual thread, and extended network. The Mosaic Principle will help you to succeed in an ever-changing, more complex, and diverse world, and build a more remarkable and fulfilling life.

A teenage pacifist and a PTSD-afflicted Marine form an unexpected bond over a secret buried in a decommissioned nuclear missile silo. Twyla Jane Lee has one goal. To finish senior year so she can get out of her military hometown of Halo, Montana. But to graduate, she needs to complete forty hours of community service, and that means helping out a rude and reclusive former Marine named Gabriel Finch. A young veteran of the conflicts in the Middle East, Gabriel spends his days holed up in a decommissioned nuclear missile silo on his family farm. Twyla assumes he's just another doomsday prepper, reading his underground shelter for Armageddon. But soon she finds out the truth, and it takes her breath away. Gradually the two misfits form a bond, and Twyla begins to unearth the secrets that have left the Marine battling ghosts. Her discoveries force her to question her views on the wars until she realizes that even if she gets out of Halo, she won't ever be able to leave Gabriel Finch's story behind her. Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.6.3 Describe how a particular story's or drama's plot unfolds in a series of episodes as well as how the characters respond or change as the plot moves toward a resolution.
