And not on regular roads, of course. On ice roads, meaning frozen lakes or oceans, where the spring thaw brings treacherous conditions and one wrong move sends you straight into the freezing abyss.

Disk contains forms and checklists from the printed text.

This is a contemporary, practical and relevant book about how to understand and apply the Bible in your everyday life. It is a superb book filled with biblically-based ways to achieve a significantly improved and healthier life. It is intentionally written using ordinary, everyday language, avoiding dogmatic, confusing and religious jargon. The book is not just for Christians, but anyone who desires to live a better life. This is not a book about religion, it is about how to effectively use the Bible to live a successful life. Evan Wride is an ordinary guy, who has read the Bible and uses it to manage his life. He is passionate, relentlessly practical and writes as if he is talking with a friend. His words, thoughts and perspectives are modern-day, heartfelt and action oriented. "Your Life User Manual" is a real-world look at the main issues we face as humans and specific ways the Bible answers them. The topics are a litany of our everyday concerns: setting priorities & plans, finances, time management, mental and physical health, addiction, love, marriage, children, dating, relationships, sex, career, co-workers, making good choices, our reason for being here and our individual uniqueness. This is not a counseling book, it is a book of God's time proven direction for how to live productive lives. Too many of us rely on ourselves, others and society for wisdom and the results are less than satisfactory. Going to the source for answers provides you with knowledge, wisdom and purpose for your, one and only, life. We have all contemplated that there must be more to life in order to achieve the meaning and significance we are all searching for. This book will specifically direct you in how to learn to "do life" according to the Bible, which will transform your life so you can become all you were intended to be. You will discover how to live your best life.

You are a writer and you have a killer book idea. When your project starts to take off you will find yourself managing a writhing tangle of ideas, possibilities and potential potholes. How do you turn your inspiration into a finished novel? Writing a User's Manual offers practical insight into the processes that go into writing a novel, from planning to story development, research to revision and, finally, delivery in a form which will catch the eye of an agent or publisher. David Hewson, a highly productive and successful writer of popular fiction with more than sixteen novels in print in twenty or so languages, shows how to manage the day to day process of writing. Writers will learn how to get the best out of software and novel writing packages such as Scrivener, which help you view your novel not as one piece of text, but as individual linked scenes, each with their own statistics, notes and place within the novel structure. As you write, you will need to assemble the main building blocks to underpin your artistry : story structure; genre - and how that affects what you write; point of view; past, present or future tense; software for keeping a book journal to manage your ideas, research and outlining; organization and more. The advice contained in this book could mean the difference between finishing your novel, and a never-ending work in progress. An essential tool for writers of all kinds. Foreword by Lee Child.

Innovation is increasingly recognized as a vitally important social and economic phenomenon worthy of serious research study. Firms are concerned about their innovation ability, particularly relative to their competitors. Politicians care about innovation, too, because of its presumed social and economic impact. However, to recognize that innovation is desirable is not sufficient. What is required is systematic and reliable knowledge about how best to influence innovation and to exploit its effects to the full. Gaining such knowledge is the aim of the field of innovation studies, which is now at least half a century old. Hence, it is an opportune time to ask what has been achieved and what we still need to know more about. This is what this book sets out to explore. Written by a number of central contributors to the field, it critically examines the current state of the art and identifies issues that merit greater attention. The focus is mainly on how society can derive the greatest benefit from innovation and what needs to be done to achieve this. However, to learn more about how society can benefit more from innovation, one also needs to understand innovation processes in firms and how these interact with broader social, institutional and political factors. Such issues are therefore also central to the discussion here.

This best-selling guide to the practicum and internship experience, written expressly for graduate counseling students by a seasoned counselor and educator, is now substantially revised. New and expanded content touches on CACREP developments, trauma-informed care, social media, mindfulness, multicultural competencies, and more. With a strong focus on counseling as a specific professional identity, the book helps graduate students and new counselors develop their own approach to counseling and supervision, maintaining beneficial working relationships, self-care, sharpening writing skills, and record-keeping. A completely new chapter focuses on trauma-informed care developed from evidence-based approaches. Concise and accessible, the book describes everything students need to know as they enter and progress through the practicum and internship process. Replete with case examples and sample forms, it encompasses information on how to select and apply for practicum/internships in all settings. It also examines ethical and legal issues, ensuring student safety at field sites, and clinical issues including teletherapy and termination. Instructor and student ancillary materials are included with this new edition. New to the Third Edition: Updated to include content on 2014 ACA Code of Ethics and CACREP developments New chapter on trauma-informed care including evidence-based approaches Information on crisis intervention and de-escalation Increased content on supervision styles and models Expanded information on student safety at field sites, job searching, dealing with mandated/resistant clients, and goal setting and self-evaluation Receiving feedback from supervisors and providing feedback to peers Stages of change/client willingness to change as counseling model Discussions about social media, vicarious trauma, cyberbullying, and mindfulness Teletherapy including confidentiality issues, hacking, encryption, and legal issues Multicultural counseling competencies Expanded case studies New Instructor's Manual and PowerPoint slides Key Features: Focuses on counseling as a specific professional identity and mentors students in a supportive, user-friendly style Covers everything students need to know as they enter and progress through the practicum/internship process Includes abundant case examples A concluding chapter on preparing for the job search, r\u00e9sum\u00e9s, cover letters, and negotiating salary

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

Praise for the First Edition: "I highly recommend The Counseling Practicum and Internship Manual. It is the single best all-in-one resource I've read for all things practicum and internship." ñ Ryan Thomas Neace, LPC, NCC, CCMHC, Blogger, American Counseling Association; Founder, CounselingInternships.com and Change, Inc. "[U]sing this text in my practicum course. It is a very user friendly book with many resources in addition to good clinical information." ñ Jessica Brumm-Larson, PhD, Alverno College This best-selling guide to the practicum and internship experience, written expressly for graduate counseling students by a seasoned counselor and educator, is now substantially revised with updated and expanded content including the 2014 ACA Standards of Ethics. With a strong focus on counseling as a specific professional identity, the book includes new information on developing one's own approach to counseling and supervision, maintaining satisfactory working relationships with supervisors and colleagues, developing good writing skills and record keeping, and managing crisis and trauma. The Second Edition also reflects such developments as DSM-5 and CORE/CACREP standards. With a concise, accessible writing style, the book describes everything students need to know as they enter and progress through the practicum and internship process. Replete with plentiful case examples and downloadable sample forms and templates, this supportive manual encompasses information addressing how to select and apply for practicum/internships in all settings, including mental health, rehabilitation, schools, addictions, and marriage and counseling. It examines such ethical legal and issues as informed consent, confidentiality, client records, boundary issues, and liability insurance. Multicultural considerations that impact counseling along with the importance of self-care including stress management and dealing with aggressive client behaviors are also discussed in detail. This "mentor in a book" gives counseling students invaluable assistance in preparing for and successfully assimilating their first experiences with the realities of working with clients, and eases the journey toward developing into a self-confident, skilled, and ethical practitioner. New to the Second Edition: Updated to include content on 2014 ACA Ethics Code, CACREP/CORE developments, legal issues, DSM-5, and social media Expanded content on developing an individual approach to counseling and supervision Provides new information on crisis intervention Increased content on supervision styles and models Expanded information on student safety at field sites Augmented discussion of careers Includes expanded self-reflection exercises for the intern Provides downloadable versions of student forms and templates Key Features: Focuses on counseling as a specific professional identity Covers everything students need to know as they enter and progress through the practicum/internship process Helps students to understand the realities of working with clients after they leave the "safe" learning environment Mentors students in a supportive, user-friendly style Includes abundant case examples Includes abundant forms and templates for students, available as online downloads

Four favorite tales by beloved storyteller. In addition to title story: "Great Claus and Little Claus," "The Tinder Box" and "The Swineherd." Newly reset in large easy-to-read type, with 6 new illustrations by Thea Kliros. New introductory Note.
